### PROJECT NOTES

## ENZO™ PRE-INSULATED MANIFOLD & VALVE BOX CUSTOMIZATIONS

**OPTIONS:** (Option #1 is Standard, others options are available for an additional price)

**Option #1:**

Light Duty 60-80 mil coating for non traffic wall or bury applications

**Option #2:**

Heavy Duty 80-100 mil coating plus mesh reinforcement, high traffic direct load applied over top

*PLEASE NOTE: Top of box (lid) is removable and allows access to valves and manifolds. Radius for pipe cutouts must be specified per side. Size drill to 1/16"-1/8" below pipe OD for ingress and egress to ensure tight fit.*
